Community Lie

Saccharine Trust

It was just the community lie
Thetas why we never felt any guilt
For the times we ridiculed her
We knew she wasn't any worst than the rest of us
No one ever calls a man a whore
That was the only defense she had
We never took time to hear her out
We were too busy looking for fault
Thetas when she fell to her knees
Who is it I'm living to please
Thetas when she fell to her face
Thetas when she
It was just the community lie
Thetas really all it was
We never thought she'd take it this far
What does it matter it'll happen again
Of course, it was justice
