

Jump Up

Take 5

Jump up and down
Everybodys getting down with this sound
When the music takes you around
Let the rhythm take you off the ground, hey
Your day jobs got you sad, somebody made you mad
It seems like everyday the same
You feel like going out, partying with a crowd
Sometimes you got to break the chain
And everybody wants to get down
Forget the everyday ups and downs
Cause when you hear the beat
You just get off your feet and join the party
Jump up and down
Everybodys getting down with this sound
When the music takes you around
Let the rhythm take you off the ground, hey
If you got lots of time but you aint got a dime
To do the things youd like to do
Turn on the radio, dial up a funky show
And listen for somebody new
And everybody wants to get down
Forget the everyday ups and downs
Cause when you hear the beat
You just get off your feet and join the party
Jump up and down
Everybodys getting down with this sound
When the music takes you around
Let the rhythm take you off the ground, hey
