

Walkin On the Sidewalks

Queens of the Stone Age

Got some action on the other side
Loose teeth in my head
New programs are coming in
So rise and take your oath I wish we get away
Drink wine and screw
I knew someone else before
Looked a lot like you And they're gone
I'm gone in space I been programed as I said before
Technology
Just rollin', wheezin' and breathin'
Eyeballs and teeth Words are weightless here on earth
Because they're free
You knew someone else before
Looked a lot like me And they're gone
And I'm gone [Incomprehensible] space
And they're gone
And I'm gone in space
