Chinatown

Destroyer

You can't believe The way the wind's talking to the sea. I heard that someone said it before, I don't care, I can't walk away, I can't walk away... In Chinatown...The wind and the rain: To your detriment you try to explain A government swallowed up in the squall. I can't walk away, at all, In Chinatown...You can't believe, Though I'm sure somebody's said it before: I know you and I know the score... I can't walk away, you can't walk away... I can't walk away, you can't walk away... I can't walk away, you can't walk away... I can't walk away, you can't walk away...I can't walk away...
