Scars

I Prevail

Excuses, excuses are all that I hear, all I can see when I look in the mirror
I can't escape all these thoughts in my mind, they're waiting to haunt me night after nightI feel it in my bones and everything I know
It's underneath my skin and it won't let go
They know me all too well, but only time will tell
If this is who I am, do I know myself?
Don't forget your life's your own, don't ever let it goIn the heat of the moment, when fear has you frozen
Crashin' and burnin', when life's at its coldest
Don't fall too far from who you are
They can cut us but we'll wear our scarsIn the heat of the moment, when fear has you frozen
Crashin' and burnin', when life's at its coldest
Don't fall too far from who you are
Try to tear us apart but know that we'll wear our scars
Try to tear us apart but know that we'll wear our scarsDenial, Denial is all that I've known, holding me hostage
I'm never alone
I'm fighting for air, I fight for my life
My soul's not for sale I won't pay the price
I feel it in my bones and everything I know
It's underneath my skin but I won't let go, won't let goIn the heat of the moment, when fear has you frozen
Crashin' and burnin', when life's at its coldest
Don't fall too far from who you are
They can cut us but we'll wear our scarsIn the heat of the moment, when fear has you frozen
Crashin' and burnin', when life's at its coldest
Don't fall too far from who you are
Try to tear us apart but know that we'll wear our scarsYou can cut us up but we will survive
You had your chance now it's our time to stand up and...
RISEIn the heat of the moment, when fear has you frozen
Crashin' and burnin', when life's at its coldest
Don't fall too far from who you are
They can cut us but we'll wear our scarsIn the heat of the moment, when fear has you frozen
Crashin' and burnin', when life's at its coldest
Don't fall too far from who you are
Try to tear us apart, but know that we'll wear our scars
In my bones and everything I know
I feel it in my bones, in my bones
Know that I'll wear my scars, my scars
Know that I'll wear my scars
