## **Better Living Through Chemistry**

## **Queens of the Stone Age**

The blue pill opens your eyes Is there a better way? A new religion prescribed To those without the faithA hero holding a knife And blood is not enough Is it too late to go back? Is it too late to go?There's no one here (There's no one here) And people everywhere (People everywhere) You're on your ownLet's see if I'm hearing this right Is it just that I should take? The never-ending supply To carry out the deadYour idols burn in the fire The mob comes crawling up And I'm reclaiming my mind Destroying everyoneThere's no one here (There's no one here) And people everywhere (People everywhere) You're all alone
