

# Never Had A Lover

## Keith Sweat

Wussup baby?  
(But you ain't never had a lover like me)  
I know you been to a lot of places  
Seen a lot of things, seen a lot of guys  
(But you ain't never had a lover like me)  
Hey baby, how you doing?  
Tell me why won't you smile?  
Aww sugar [incomprehensible]  
Sit down let's talk awhile  
She says I ain't been loved in awhile  
Been going through ups and downs  
And I need somebody  
Now I said don't worry about a thing  
Baby I got your back  
You're rolling with Keith and like that  
I know you been through things with some other guys  
(But you ain't never had a lover like me)  
I know you tired of fearin' how they puttin' it down  
(But you ain't never had a lover like me)  
Baby bring your body closer to mine  
(But you ain't never had a lover like me)  
I have your body jump and scream and shout  
And say keep doing it all night long  
(But you ain't never had a lover like me)  
I know you been stressin', so I did something special  
And darling just for you, we going to Central babe  
Baby we'll spend a day hugging and kissing  
When I get this feeling, are you going to give me sexual healing?  
  
'Cause I'm feeling you right now, and you know it's been awhile boy  
Tell me how you want it, baby girl I'm gonna come jump on it  
So let me inside, you ain't never had a lover like me  
I know you been through things with some other guys  
(But you ain't never had a lover like me)  
I know you tired of fearin' how they puttin' it down  
(But you ain't never had a lover like me)  
I want you to bring your body closer to mine  
(But you ain't never had a lover like me)  
I have your body jump and scream and shout

And say keep doing it all night long  
(But you ain't never had a lover like me)  
Your body's here, lookin' sexy my dear  
Girl I'm gonna give it to you anyway you want it  
There's nothing but chemistry between you and me  
Your body is calling me, let me show you the way girl  
You should be loved, baby  
I know you been through things with some other guys  
(But you ain't never had a lover like me)  
I know you tired of fearin' how they puttin' it down  
(But you ain't never had a lover like me)  
Baby bring your body closer to mine  
(But you ain't never had a lover like me)  
I have your body jump and scream and shout  
And say keep doing it all night long  
(But you ain't never had a lover like me)  
But you ain't never had a lover like me
