

# Uh Oh

## KRS-One

My hands are down, I can no longer masquerade  
You're just like poison in my veins killing me inside  
I know you tell everyone, I'm, what's her name  
But you're story tends to change when you look in my eyes  
Uh oh, do you really wanna know?  
Don't waste another minute of my precious time  
The social strain is watching you out with all your friends  
With the disgust that you pretend when I walk on by  
You wear it well, treating me like someone you don't know  
But then you call me on the phone to tell me goodnight  
Uh oh, I think I better go  
Before I turn this love into a crime  
Uh oh, do you really wanna know?  
Don't waste another minute of my precious time  
You can turn me inside out  
You can follow me around  
I don't care what you do  
Just as long as you know, I'm through  
Uh oh, I think I better go  
Before I turn this love into a crime  
Uh oh, do you really wanna know?  
Don't waste another minute of my precious time  
Uh-oh, uh-oh  
Don't wanna think about when you were mine
