

# SENSELESS ABUSE

## Prong

Sickened by the action

The senseless abuse

Hatred the reaction

Now put it to useThe treatments, the testimony of motives

Strategy, manipulation, tormented minds

Maneuvers capitalize on innocence

Power wielding deeds crushing my headSickened by the action

The senseless abuse

Hatred the reaction

Now put it to useExploitive, revengeful rage emerging

Struck are hidden chords, stricken by the crimes

Self control and conscience now dormant

The dark urge fulfilled, the abuse is here to stay
