

# Poetry

## Hope

(verse one)

This aint the movies baby you cant fool me  
Your words are empty and they dont move me no more

I wish it didnt have to be this way

no baby I wont chase you

but soon I will replace you oh no

I wish it didnt have to be this way(chorus)

You aint no good to me

Your just my poetry for now

And its clear to see your just temporarily around

But still you keep on comin around

Playin the part flippin the script

Fakin your heart comin around playin the part

Flipin the script fakin your heart(verse two)

Sometimes I think im crazy

Forever lovin you

I took my chances

And look what happened

Im the one to lose

Whats the point of this drama?

Its takin so much of me

Im better off with out you honest

you got the best of me(chorus)

You aint no good to me

Your just my poetry for now

And its clear to see your just temporarily around

But still you keep on comin around

Playin the part flippin the script

Fakin your heart comin around playin the part

Flipin the script fakin your heart(bridge)

Its a shame its a shame its a shame

You wont change you wont change you wont change you wont change.

Its a shame its a shame its a shame

You wont change you wont change you wont change you wont change.(chorus)

You aint no good to me

Your just my poetry for now

And its clear to see your just temporarily around

But still you keep on comin around

Playin the part flippin the script

Fakin your heart comin around playin the part  
Flipin the script fakin your heart
