Something's Happening

Herman's Hermits

Something is happening

And it started happening when you walked by

Something is happening

And it's changing everything do you know why? As soon as you started to kiss me

Something new suddenly hit me

Love walked over, it's always happening

The same sort of things to others too

Something is happening to me

And I only hope the same thing is happening to youSomething is happening

Exiting, bewildering you must know why

Something is happening

I can't think of anything but you and IWhat begins, these happy notions

You do things to my emotions

I can't help whatever is happening

There's nothing about it I can do

Something is happening to me

And I only hope the same thing is happening to youWhat begins, these happy notions

You do things to my emotions

I can't help whatever is happening

There's nothing about it I can do

Something is happening to me

And I only hope the same thing is happening to youWhat begins, these happy notions

You do things to my emotions

I can't help whatever is happening

There's nothing about it I can do

Something is happening to me

And I only hope the same thing is happening to you
