

# You Stay with Me

Faith Hill

TV flashes down the hall  
Paintin' pictures on the wall  
And you're still sleeping on my knees And in the glow of silver light  
I trace the lines above your eyes  
Just another wrinkle that you can blame on me But I can hear the current of the freeway in the distance, if I keep  
listenin'  
And I wonder if you ever thought of streamin' off, somewhere with it  
Am I not what you thought? Will you get tired of what you got? If I can't give you anymore  
Than weathered ships and distant shores  
Would you still be my compass? Yeah 'Cause you keep lovin' me the same  
I don't know how but you still stay with me, baby  
You stay with me, baby  
Another day, another week  
We'll slip back in old routines  
'Til nights like these come in between Simple moments in the dark  
Ones that life can't tear apart  
They come along, oh just when we need And still hear the current of the freeway in the distance but I stop  
listenin'  
'Cause I know you'll stay even though the waves are always shiftin'  
We're fightin' our way through, I guess I always knew If I can't give you anymore  
Than weathered ships and distant shores  
Would you still be my compass? Yeah 'Cause you keep lovin' me the same  
I don't know how but you still stay with me, baby  
You stay with me, baby  
'Cause you keep lovin' me the same  
I don't know how but you still stay with me, baby  
You stay with me baby, oh you stay with me TV flashes down the hall  
Paintin' pictures on the wall  
And you're still sleeping on my knees
