Z28

Static-x

Terminal head, hard sound, under fire
Hard crunch, gate over rate
Anything goes, trip hop, chill out, overtake, under rate
Take a couple pills, I got nothing more to lose
Put a fist through, through the window
Take an eight bit, over sample
I'm a speed freak, devil angel
Try to hold on, when I slam it to the floor
Beat down, fire it up
Burned out, Z28
Iron clad, big block, old carburetor
Try to keep it on a straight line
Burning those slicks, brawler crawler
Keep it on the red line, take another shot
I got nothing to lose
Put a fist through, through the window

Take an eight ball, oversample
Aspiration, rehabilitation
Try to hold on, when I slam it to the floor
Beat down, fire it up
Burned out, Z28
Beat down, fire it up
Burned out, Z28
Put a fist through, through the window
Take an eight bit, oversample
I'm a speed freak, devil angel
Try to hold on, when I slam it to the floor
Beat down, fire it up
Burned out, Z28
Beat down, fire it up
Burned out, Z28
