## **Spread Legs Not Lies**

## The Blackout

I now see your disguise
I'm hiding from you
And all your lies
Are coming trueThe tales have now begun
I'm lying to you

And your serpents tongue
Is coming throughClose your eyes and swallow

Time is on your side

I will make you feel so hollow

Time is on your side

So lay down for me

Time is on your side

And feel so hollowI now see your disguise

I'm hiding from you

And all your lies

Are coming trueThe tales have now begun

I'm lying to you

And your serpents tongue

Is killing youEverybody knows that you're a liar It is time to fight with fireGet downI'm telling the truth

Time is on your side

Time is on your side

Time is on your side

Time is on your side Time is on your side

Time is on your side

Time is on your side

Time is on your side
