

Come On

Green River Ordinance

Everywhere I look I see your smilin' face
Every song I sing, I sing in hopes you're listening
When the tables turned I learned from my mistakes
We're only human here after all, oh aren't we all?
 Don't walk away, don't say goodbye
 Don't leave me here, no not tonight
 Don't walk away like any other time
 Come on, come on
If you wanna make it right we can make it right
I said it's been too long to let go now, hear me out
 Come on, come on
If you wanna make it right we can make it right
I said I won't be here when the morning comes
Even with your eyes closed do you hear my voice?
Carry in the weight of all the loved and left behind
 Love's so unpredictable, have we been blind?
We're only human here after all, oh aren't we all?
 Don't walk away, don't say goodbye
 Don't leave me here, no not tonight
 Don't walk away like any other time
 Come on, come on
If you wanna make it right we can make it right
I said it's been too long to let go now, hear me out
 Come on, come on
If you wanna make it right we can make it right
I said I won't be here when the morning comes, no
I just wanna be the hand you hold when you're cryin'
I just wanna be the voice that tells you it'll be alright and
 When your world is coming down
 And when your hope's no where to be found
Well, I'll be here, well, I'll be here, well, I'll be here for you
 Come on, come on
If you wanna make it right, we can make it right
I said it's been too long to let go now, hear me out
 Come on, come on
If you wanna make it right, we can make it right
I said it's been too long to let go now
 Come on, come on, no, no
 Come on, come on, no

Come on, come on
Come on, come on
Come on, come on
