

# You've Had It

## Wet Wet Wet

Where have you got to lately  
Where are you going to be  
And I thought about it yesterday now baby  
It's in my cuts now baby  
As deep as yours  
And the scars from this are gonna last for ever  
And ever You've had it  
What you're getting from me  
You've had it  
Now what's it going to be  
You've had it  
What you're getting from me  
But all I wanna do is be with you Now that you've got me baby  
You're just as sharp as me  
And I'm glad you've cut me off  
Writing my lies on the back of your hand  
Tearing me up and watching you land  
Sitting your heart on the sofa with me
