

Doctor Doctor

Oh Pep!

Did I push it too much
Or not enough
When did I start losing touch
When did you start giving up
'Cause I'm standing here
You're over there
And the space in between
You don't care to be seen with me Where is the light
For me it's the darkest night and
I am cold
And I feel much older than I am
If we can agree
To both see things differently then
I will grow
And be better for what I now know I went to the psychic and the psychic said
He wants it too but it's up to you
So I kind of tried but I don't succeed
I know what I want and it's not what I need
I know what I want and it's not what I need
I know what I want and it's not what I need
I know what I want and it's not what I need
I know what I want and it's not what I need I'm paying the price
It's keeping me up at night
My maybe baby is treating me cruel
Teaching me not to keep my heart a fool
What's dear to you
You can't keep it even if you want to
You hand it to me oh you hand it to them
Don't think you're ever gonna get it back again. I went to the doctor and the doctor said
To fix the pain you're gonna have to change
So I kind of tried but I don't succeed
I know what I want and it's not what I need
I know what I want and it's not what I need
I know what I want and it's not what I need
I know what I want and it's not what I need
I know what I want and it's not what I need I went to my mother and my mother said
It ain't true yet, get it out of your head
So I kind of tried but I don't succeed
I know what I want and it's not what I need

I know what I want and it's not what I need
I know what I want and it's not what I need
I know what I want and it's not what I need
I know what I want and it's not what I need
Nine months to the deadline
And nine weeks to make up your mind
Once you decide there's no room for doubt
Every minute of your life to figure it out
