# Rest My Chemistry

## Interpol

I haven't slept for two days
I've bathed in nothing but sweat
And I've made hallways
Scenes for things to regret
My friends they come
And the lines they go by
Tonight I'm gonna rest my chemistry
Tonight I'm gonna rest my chemistry
I live my life over cocaine
Just a rage and three kinds of yes
And I've made stairways
Such scenes for things that I regret
Oh, those days in the sun
They bring a tear to my eye
Tonight I'm gonna rest my chemistry
Tonight I'm gonna rest my chemistry
But you're so young
You're so young, you look in my eyes
You're so young, so sweet, so surprised
So the sign says okay
Gotta take a ride
Just recline in the faraway
Gotta take some time to realize
That my friends they come
And the lines they go by
Tonight I'm gonna rest my chemistry
Tonight I'm gonna rest my chemistry
But you're so young
You're so young, you look in my eyes
You're so young, so sweet, so surprised
You look so young like a daisy in my lazy eyes
So tonight I'm gonna rest my chemistry
Tonight I'm gonna rest my chemistry
Tonight I'm gonna rest my chemistry
Tonight I'm gonna rest my chemistry
