

# Sad Little Moon

## The Magnetic Fields

The saddest brown eyes I'll ever know  
You gave up crying so long ago  
But come outside and watch the snow  
Softly falling Sad little moon in the big black sky  
All alone, hang your head and cry  
Sad little moon in the timeless night  
You may sleep but you will never die You didn't need them, your Sunday friends  
And so you watched them like grains of sand  
Running one by one out of your hands  
Softly falling
