

# Is It Still Cheating

[Mark Chesnutt](#)

The answering machine says  
You'll be late again, third time this week  
And I know what you're doing  
But to tell the truth it's a relief  
'Cause that means she and I will have  
A little extra time  
And we won't be in such a hurry  
But baby, if we play each other as fools  
And break each other's rules, is it still cheating?  
Is it still cheating if both of us are lying?  
It's getting hard to take  
'Cause I'm guilty as hell, but baby, so are you  
And we're still married  
But does that word have any meaning  
If you're lying next to him  
And she's lying next to me, is it still cheating?  
When I pick up the phone and no one says hello  
I know it's him  
And it's getting to the point where  
It don't hardly even change the mood I'm in  
But every single promise broke, deep inside I know  
I should be dying or at least crying  
Ah, but if I don't love you and you don't love me too  
Is it still cheating?  
Is it still cheating if both of us are lying?  
It's getting hard to take  
'Cause I'm guilty as hell, but baby, so are you  
And we're still married  
But does that word have any meaning  
If you're lying next to him  
And she's lying next to me, is it still cheating?  
If you're lying next to him  
And she's lying next to me, is it still cheating?
