Lifesupport

Caesar

Shoot it like a gun
For you've never been so wrong
You've been taken it too far
Only out to survive
And it's heavy to endure
Yeah we need a lifesupportAnd every single day,
Came as it was
And it's only fair to say,
Leave me out for a while
Cause it's heavy to endure
You're way beyond repairAnd the price you have to pay
Seems a bit too high for me
I will never ever blame you
Are only out to survive
It's too heavy to endure
Even harder to ignoreBut I ain't got no medicine
No I ain't got no medicine
You see you're a setting sun
Only out to survive
Cause it's heavy to endure
We need a lifesupport
