Twisted

Neneh Cherry

I think I could give myself up to you
Cause you pushed your way thru my attitude
But a taste of life on the tip of my tongue
Won't let me forget. It just reminds me
Of all the things I've been fed
And all the magazines that I've read
I'm suspicious of what you saidHow long can we be this way
How long can we live this way
Will twisted tongues bring us down
Or the twisted world we're living in
Or am I the one that's twisted too
Thinking we'll make it thruLipstick smiles bring me worries
When I imagine you with somebody else
That's when I know you got me twisted baby
Oh these wicked jealousies could bring us down
Every woman to herself
Every man is his own
When I'm with you the feeling's stronger
I wonderchorus:
How Long can we be this way
How long can we live this way...The thought of saying I'll give you everything I got
Seems so empty cause it's stereotype
To protect my sanitychorus
