

Only Human

Robin Loxley & Wolfgang Black

I'm on your every move
That pale skin and crimson lips, so it's true
I'm hanging on a noose
It must be written all over my face
Though the smile is starting to fade...

(Chorus)

I let you under my skin
It's only you that I need
I can't keep falling for you
I'm only human (2x)

I'll paint your body like a masterpiece
I'll trace the bruises with my fingertips
Dark illusions, turning black and blue
It must be written all over my face
Though the smile is starting to fade...
And on the eyes those tears have made
I know this is a losing game

(Chorus 2x)

I let you under my skin
It's only you that I need
I can't keep falling for you
I'm only human (2x)
