

# Hollow Head

## Sloan

I followed it half way around the world  
It's obnoxious and absurd  
I dedicate myself too late  
To all the people who have heard  
The sound of the living gospel  
The promise of the living word  
That a fool like me can refuse to believe  
And to get what I deserveTake it on  
Take it [on]  
Arms and elbows  
Made to hold close  
Legs that follow  
Head that's hollow  
All that you know  
Is love must growOr you will  
Lose  
Or you will  
LoseThe hardest lesson that you learn  
Elimination of concern  
I realise the compromise  
It's the flicker, not the burn  
It's easy living life on the outside  
To never have to wait for your turn  
Even a fool like me can refuse to believe  
And still get what I deserveTake it on  
Take it [on]  
Arms and elbows  
Made to hold close  
Legs that follow  
Head that's hollow  
All that you know  
Is love must growIt's easy living life on the outside  
To never have to wait for your turn  
Even a fool like me can refuse to believe  
And still get what I deserveArms and elbows  
Made to hold close  
Legs that follow  
Head that's hollow  
All that you know

Is love must grow Or you will

Arms and elbows

Made to hold close

Head that's hollow

All that you know

Is love must grow

Or you will lose

Or you will lose
