Missing Persons

Nerve City

When you were young you lost your way
One simple mind led you astray
Now I can see the missing link
So why miss out again
Yes I can see where you went wrong
Cos I missed out the same
You thought the door had closed on you
Like me you didn't have a clue
Now I can see the missing link
We won't miss out again
Oh I can see where we went wrong
We both missed out the same
Missing missing persons
Missing missing persons
Missing missing persons
Missing missing persons
Missing missing
We missed the point we took the blame
A cast of thousands did the same
Now I can see the missing link
We won't miss out again
Oh I can see where we went wrong
We both missed out the same
Missing missing persons
Missing missing persons
Missing missing persons
Missing missing persons
Missing missing
