

Shadows (Jens Lekman Remix)

Au Revoir Simone

You tell me

That it's getting better

But every time that we say goodnight [goodnight goodnight]I'm haunted by your eyes

And how long they've been cryingDon't tell me

About a bad reaction

Don't tell me that you plan to hide [to hide to hide]

Reasoning asideI'm moving on

I hope your coming with me

I hope your coming with meAnyone can answer their own questions

All you have to do is look inside [inside inside]

You know it inside

You know it will be alright [alright alright]

You know its alrightI'm moving on

I hope your coming with me

Cause I'm not strong without youDon't blame it on your shadows

Cause I know all about you
