All My Dreams

Jill Barber

I used to dream under the stars above
That it would make me fall in love
But what do I do
Now that all my dreams have come true?I used to gaze under them stary skies
An' now I gaze into my lover's eyes
That's what I do
Now that all my dreams have come trueThe moon up high let out a sigh
An' made my wish come true
Now what do I do
Thank my lucky stars that brought me here to you.Instrumental----------Under the covers
Tucked in tight
Kissin' you, an' wishin' you
Sweet dreams all through the nightAn' now I dream each night an' every day
Whether I'm asleep or wide awake
That's what I do
Now that all my dreams have come trueThat's what I do
Now that all my dreams have come true
