You Know That I Want To

[George Michael](#)

Lover don't love too much
It's a bad thing, a sad thing
It is heaven to the touch
Hey everybody's got a moment in their lives
They can't change
(don't they baby)I know you don't care
What's right or wrong
All that I know
Is that love don't belong heer
So it's better to turn the page
Watch me walk away my dear
Watch me walk away
You say[Chorus]
I can't stop but you know that I want to
I can't stop don't you know that I want you
I want you baby
More than ever
I can't stop but you know that I want to
I can't stop don't you know that I want youBut it's never gonna be that easy
I don't want to waste your timeLover don't love too much
I'm a bad boy, a sad boy
And I'll never give you much
Hey everybody's got some moment in their lives
They can't change
YeahSo I do not dare
Take you home
All that I know
Is that something's so wrong with this heat
Why do you touch the flame
You know you feal the pain my dear
You always find it here
You say[Chorus]But it's never gonna
So what happens everytime
It's so easy to forget myself where
A little while you want a boy
In a place you will be all mine
Can't you seeOh, I'm losing you baby
Chorus
But it's never gonna be that easy

You want a lover, I am just a friend
