

Godsend

The Danse Society

Hoping, praying, I've been waiting
Everybody needs somebody to love
There's no question, straight from heaven
You're my angel, I'm so crazy for you You're a Godsend
A blessing from above
You've been God sent to me
You're the Godsend I've been dreaming of
You're a Godsend Holding your hand, touching your face
I will love you now and always I swear
I will never forget that first moment we met
When two worlds collided and I found my best friend You're a Godsend
A blessing from above
You've been God sent to me
You're the Godsend I've been dreaming of
You're a Godsend I was made for you, you were made for me
In this lonely world, we were meant to be in love I will never forget that first moment we met
When two worlds, they crashed in
And I found my best friend You're a Godsend
A blessing from above
You've been God sent to me
You're the Godsend I've been dreaming of
You're a Godsend
