

Send them home

Pax Afro

Send them home

Pax Afro

There were caught in a trap
They did nothing wrong
Except to be found where they were

What cause could they be for such heartless acts?
Go tell the mountains that life is not fair
Say you can see them lying there slain
Say these are things words cannot explain

Send them home
Let them go free
Send them home with their dignity
Send them home
Give them your love
Send them home to eternity

[Instrumental]

They were caught in a trap screaming their lungs out
Painful anguish in a senseless attack
Their loved ones despair
Crying all night hoping daylight will bring them back

This is the season when hate is so high
This is the reason you cannot stand by

Send them home
Let them go free
Send them home with their dignity_
Send them home
Will give them your love
Send them home to eternity X5
