

Until the End

Michael Delguidice

Did you find me there again outside our old hotel
You have grown and I have shown, that I've been fine as well
Can I build a bridge between your heart and mine?
Take away your pain and make it mine
Until the end, my faithful friend
Til the end

Did you find me there again inside our old hotel
Years have gone and still you're on my mind but can you tell?

Will you look for me when I cannot be found?
Say to me you'll always be around
Until the end, my faithful friend
Til the end

I will look for you if you cannot be found
Say to you I'll always be around
Until the end, my faithful friend
Til the end
