

Tightrope Of Love

Chatham County Line

I found love is like a balancing act
Lean one way, you gotta react
This girl's got me up on a high wire So step right up, ladies and gents
Like a tightrope walking in a circus tent
Couldn't fall for her from any higher Might have found love
But it didn't find me
I'm walking the line
Too thin to see Looking down, high above
Walking on this tightrope of love Her diamond eyes and ribbon hair
Got me walking through the air
Every step just to show her what she's worth
To tell truth, I am inspired
And every day walk that wire
I'm putting on the greatest show on earth Might have found love
But it didn't find me
I'm walking the line
Too thin to see Looking down, high above
Walking on this tightrope of love If I fell in my balancing act
I can rest assured in the fact
That I got as close to her as I can get
And I did it all on a limb Might have found love
But it didn't find me
I'm walking the line
Too thin to see
Looking down, high above
Walking on this tightrope of love Looking down, high above
Walking on this tightrope of love
