

# New Life

## Jeremy Glenn

New life, born of my heart  
New eyes, follow what's been  
You I, we are the stars  
New life borrow from me

New life, hollow it seems  
Through lies, all light is dark  
Do right, all yours can be, for you to see  
So new life, follow your art

New life, true life is hard  
Hewn by, sorrow and grief  
Blue skies fade into dark, so best to be smart  
But do try, and all woes will be brief

New life, tomorrow is yours  
If you want it or not  
New life, never retreat  
New life, all know your heart  
It's all you've got  
New life, tomorrow's your dream

And your destiny

New life  
New life  
It's your destiny  
Dream (repeat x 3)
