The Stalker

Ramrods

Thought you wanted, thought you wanted
I thought you wanted to save me
Now, you got it, what you wanted
Now, you're driving me crazy
You don't know me, never met me
But I know that you'll like me
Now, I'm comin', now I'm comin'
I hope that you like me
Gonna come undone
(Got your address)
Got to keep me from
(Where you live)
Like a lost street bum
(Got your number)
They call me, they call me stalker
Thought you wanted what you wanted
I thought you wanted to save me
What you wanted, now you got it
Now, you drive me insane, yeah
You don't know me, never met me
But I know that you'll like me
Now, I'm coming to your party
But you didn't invite me
Gonna come undone
(Got your address)
Off the T.V. from
(Where you live)
Like a lost street bum
(Got your number)
They call me, they call me stalker
