

Maintain (feat. Chantae Cann)

[Jonathan McReynolds](#)

Hmmm...

I see you moving all the needed people out my life
And am trying to get these crazy thoughts out of my mind...
Yeah, You gave me all the weapons... but it's still a fight

So help me maintain

Help me maintain I don't wanna live in stress or fear
Cuz its getting crazier... everyday out here
All the love and peace you gave to me... I hold so dear
So help me maintain.

Help me maintain Cuz soon... as... i... walk out the door
I need... You... more... and... more

Hmmm...

See, I realized that sometimes am just not that smart
But i desperately just wanna be where You are...
And compared to a while ago, I've gotten far

So help me maintain

Help me maintain Hmmm...

(interlude) Cuz as soon... as... I... walk out the door

I need... You... more... and... more

You... know... what's... in... store

I need... You... more... and... more Hmmm...

I recognize this is a day that You have made
So I walk in love n put a smile... on my face

But in case i run into someone on a different page

Help me maintain

Help me maintain

All my troubles, help me maintain

All my peace, help me maintain

My sanity, help me maintain

My smile, Jesus, help me maintain

My Life, help me maintain

My heart, Lord God, help me maintain

Everybody and everything, help me maintain

hmmm... help me maintain
