Crossbreed

You wanna feel it go, go
You wanna feel it go
You wanna feel it go, go
You wanna feel it goYou wanna feel it go, go
You wanna feel it go
You wanna feel it go, go
You wanna feel it goWon't you color me a picture
Of your shallow needs?
Together you and me will
Find a pill to help stop you bleedAll this time you thought you'd never
Live successfully
Just turn right back around
And tell yourself the deliveryYou wanna feel it go, go
You wanna feel it go
You wanna feel it go, go
You wanna feel it goYou wanna feel it go, go
You wanna feel it go
You wanna feel it go, go
You wanna feel it goWon't you color me a picture
Of your shallow needs?
Together you and me will
Find a pill to help stop you bleedAll this time you thought you'd never
Live successfully
Just turn right back around
And tell yourself the deliveryNo, I'm not awake, no, I'm not awake, no, I'm not awake
The more that you sleep
The less that you dream about meNo, I'm not awake, no, I'm not awake, no, I'm not awake
The more that you sleep
The less that you dream about me, goYou wanna feel it go, go
You wanna feel it go
You wanna feel it go, go
You wanna feel it goI'm not awake, I'm not awake, I'm not awake, I'm not awake
I'm not awake, I'm not awake, I'm not awake
The less you dream about meNo, I'm not awake, no, I'm not awake, no, I'm not awake
The more that you sleep
The less that you dream about meNo, I'm not awake, no, I'm not awake, no, I'm not awake
The more that you sleep
The less that you dream about meNo, I'm not awake, no, I'm not awake, no, I'm not awake
The more that you sleep

The less that you dream about me, go You wanna feel it go, go

You wanna feel it go

You wanna feel it go, go

You wanna feel it go
