

You and Only You

We The Kings

Every single day I wake
I just cant wait to see your face
Are you looking back at me? And every moment that goes by
I am waiting for a sign
Think of you and I'm alright
Did you think of me tonight? You, and only you,
You make my heart feel like you're pulling every string.
You, and only you,
You make me drop down to my knees and give this ring.
My everything... Baby once upon a time,
There was a million stars up high.
Now you're the only light I see. And I don't care which way we go
Teach me everything you know
Everything a love should be
So baby just believe. You, and only you,
You make my heart feel like you're pulling every string.
You, and only you,
You make me drop down to my knees and give this ring.
My everything... Don't be alone
Cause when you're far away
A house of memories
Say you'll come back home
For me, for good You, and only you,
You make my heart feel like you're pulling every string.
You, and only you,
You make me drop down to my knees and give this ring.
My everything...
