# Twenty Four Seven

## Slick Fitty

Some folks say there's a price on love
Watch your freedom go, watch your freedom go
Just can't breathe when you're hand in glove
Watch your freedom goBaby, I don't know
But how can they mean it?
How come they give it up?
How long until they see
The modern laws of loving don't apply to meTwenty four seven, stay here with me
Twenty four seven, throw away the key
Twenty four seven, I don't wanna be freeYou get by if you kiss and tell
Hear the people say hear the people say
Two strong hearts gotta share one cell
Hear the people say but it ain't my wayHow can they mean it?
How come they add it up?
I'll give my heart and my soul
If loving you is prison, I don't need paroleTwenty four seven, stay here with me
Twenty four seven, throw away the key
Twenty four seven, I don't wanna be free free freeTwenty four seven, around the clock
Twenty four seven, I never want it to stop
Twenty four seven, um here with meI'm gonna count the time
That you're gonna be mine
Seven days a week
Twenty four hours ain't enough for meHow can they mean it?
How come they add it up?
I'm gonna give my heart and my soul
If loving you is prison, I don't need paroleTwenty four seven, stay here with me
Twenty four seven, throw away the key
Twenty four seven, I don't wanna be free
