## Aleesia

Angel by aleesia  
I can't figure this out  
I'm stuck on this cloud  
And I don't think I'm crazy  
I am never coming downHe makes my heart pound  
Yeah he's so amazing  
I never thought somebody  
Like you really existedClose my eyes and  
Make a wish  
He must be an angel, angelHe must an angel  
Falling down, yeahHe must be an angel  
Got me an angelF-F-falling from the heaven above  
Take me with you  
To, heaven (3x) yeahHe's always on cue he know just what to do  
To, make me feel so good  
And when he comes around  
I'm all upside down  
And I feel like I cant breath  
And I feel like I cant breathI never thought somebody  
Like you really existedClose my eyes and  
Make a wish  
He must be an angel, angelHe must an angel  
Falling down, yeahHe must be an angel  
Got me an angelF-F-falling from the heaven above  
Take me with you  
To, heaven (3x) yeahDon't know what he did  
But I cant get him out  
Of my mind  
He must be an angel
