

# Do Nothing/bitchslap

## Slipknot

The system has failed and you have failed with it  
No time to care, just time to say "Who gives a shit?"

My mind boils as I've decided I'm through  
Fuck your position in life. I'm taking vengeance on you  
I break down the walls of the political arena  
(protect yourself)

Cast the vote on FN-FAL, yeah, we'll be seein' ya!  
I want to put a cap right in your asshole  
You step to this, you're gonna pass  
So, be on your way and get some class

for a lump of dogshit in the grass  
My mind boils in life as I've decided I'm through  
Bitchslap  
Chop down the big-wigs, shoot the televisions, too  
The guilty of crimes will be hung from the trees  
Spit and punches arise from you and me  
Sit back and do nothing if that's what you want to do  
I will have my reign as king, when I take vengeance on you
