

Tourniquet

[jeremy messersmith](#)

When I see you crying
If your tears run out
I will lasso you a thundercloud
When you're tired of trying
I won't stay away
I don't care what other people say
When there's nothing left to do
I will pull you close, wrap my arms around you
No, I won't let you slip
I'll be your tourniquet
No, I won't ever quit
I'll be your tourniquet
When you've been forgotten
Labor left for lost
Cared for naught, knocked down, and written off
When you feel like dying
Think you won't be missed
I will be there in an ambulance
When there's nothing left to do
I will pull you close, wrap my arms around you
No, I won't let you slip
I'll be your tourniquet
No, I won't ever quit
I'll be your tourniquet
No, I won't let you slip
I'll be your tourniquet
No, I won't ever quit
I'll be your tourniquet
No, I won't let you slip
I'll be your tourniquet
No, I won't ever quit
I'll be your tourniquet
