

Its About Us

Alex & Sierra

Life's about so many things.
It's all about our hopes and dreams.
It's all about sticking it out through all the ups and downs.'Cuz it's hard to accept the narrative
of the modern world and how we live.
So to change my world,
and change my view,
and start taking better care of you.....because
It's about us.
It's about you...and me.
Now it's about us.
It's about us
And what we can do to keep each other alive.It's about us.
