

You Don't Know

Helen Shapiro

Wow...
Although I love you so
Oh you don't know
You don't know just how I feel
For my love I daren't reveal
I am so I'm so afraid
You might not care
Every time you pass me by
Oh You don't know
You don't know what I go through
Seeing someone else with you
Oh I wish the one with you were me
But you don't know
I would tell you
If I believe that you might care someday
But until then I'll never give this away
So a secret must stay
And You don't know
You don't know how hard to bear
Is this one way love a-fair
For it breaks my heart to be
In love when you don't know
Oh...
Wow...
