

Drivetime

Echo & The Bunnymen

if we ride ride ride
ride come on to the other side
float, floating on the night tide
just beyond where the sun dies if we fly fly fly
fly with me now over oceans wide
higher than heaven
higher than the sky
you, me and god
can watch the sun rise baby come on
baby come on drivetime
on drivetime
on the drivetime
driving by if we ride ride ride
wearing our mistakes in a rising tide
makes us and breaks us
there's no one to guide
spirits follow in the blind if we fly fly fly
will it take us into high high
a prayer and a wish
just the why why
we can't see the skyline for the sky baby come on
baby come on drivetime
on drive time
on the drivetime
driving by drivetime
on drivetime
on the drivetime
driving by oooh (why why why why why why
early sunrise) baby come on
baby come on drivetime
on drivetime
on the drivetime
driving by drivetime
on drivetime
on the drivetime
driving by oooh
