

# I Want You

Dean Martin

I want the highest star to travel far  
The things the world has seen  
And speaking of the things the world has seen  
I want you I want a rajah's jewel, a swimming pool  
The rarest treasures known  
And speaking of the rarest treasures known  
I want you So soft your touch so sweet your kiss  
So tender are your charms  
And when my love I hold you near  
The world is in my arms I want a rainbow's gold a heart to hold  
The greatest love of all  
And speaking of the greatest love of all  
I want you So soft your touch so sweet your kiss  
So tender are your charms  
And when my love I hold you near  
The world is in my arms I want the rainbow's gold a heart to hold  
The greatest love of all  
And speaking of the greatest love of all  
I want you
