Castaway

Benassi Bros.

Im wandering alone in an open space
Looking around for a human trace
Along the edge of this satellite
Losing the route in this empty skyIm prey of the ghosts of this galaxy
Loosing myself in this ecstasy
No clock is turning to sign the time
Everythings floating through day and nightNo noise is breaking my silent star
Im on the run, I can go so far
Flying in absence of gravity
Feeling the vibe of eternityThis is the lesson I had to learn
This is the treasure I had to earn
I am the owner of nowhere land
Queen of a castle thats made of sandStaring in front of the universe
Maybe someday Ill meet someone else
Im sure Ill do it, but still that day
Here on my star I am just a castaway
