

# Love And Kisses

[Janis Martin](#)

Love and kisses, I don't want 'em  
Love and kisses, not from you  
You can keep your love and kisses  
Till you show me you'll be true You could sweet talk just right  
Make me think black was white  
Make me think day was night  
But all along you did me wrong  
All the others, you see  
Got the same old routine  
How could you be so mean  
Every sigh was just a lie Love and kisses, I don't want 'em  
Love and kisses, not from you  
You can keep your love and kisses  
Till you show me you'll be true Now it's time to agree  
You'll be my honey bee  
Take your nectar from me  
Be my own or fly alone  
You're romantic, oh yes  
But I couldn't care less  
If it means I must guess  
Where are you and what are you doin'
