

Blue Star

Lenny Marcus

Blue star over my shoulder
Blue star, can't you see?
Blue star, it's a little colder

She's gone away from me And I wish I never seen her with the sunlight in her eyes

And I wish I'd never learn the game she played

And I wish I'd never listen when she told me all the lies

And I wish I'd never seen her walk away She was everything I wanted

She was sweet mystery

Blue star, every night I hold it

She's gone away from me And I wish I'd never seen her with the sunlight in her eyes

And I wish I'd never learn the game she played

And I wish I'd never listen when she told me all the lies

And I wish I'd never seen her walk away Dark eyes shining like two diamonds filled with fire

Dark hair blowing in the wind of hot desire

Red lips pulling me now Dark eyes glowing like two diamonds filled with fire

Dark hair blowing in the wind of hot desire Blue star over my shoulder

Blue star, can't you see?

Blue star, it's a little colder

She's gone away from me And I wish I'd never seen her with the sunlight in her eyes

And I wish I'd never learn the game she played

And I wish I'd never listen when she told me all the lies

And I wish I'd never seen her walk away

And I wish I'd never seen her walk away
