

Let's Build a Bridge

Michael English

What happened to the dream we knew
Everybody having something to live for
Seems we've forgotten where we're going to
And all the reasons for the things we doAnd we just stack another stone in place
Until the walls we're facing seem so high
Sometimes, it's enough to make you cry
It's time to dry your weeping eyesLet's build a bridge, tear down the walls
Goin' up, climbin' higher and higher
Let's build a bridge, take us across
Hand in hand, climbin' higher and higherLife gives us problems, it hands us pain
These are the stones of self-destruction
We've got the power to bring a brighter day
If we'll only help each other make a changeAnd let it take us to a higher place
So we can see the world for what it is
It's not impossible to break the chain
There is a way if we'll take itLet's build a bridge and tear down the walls
Goin' up, climbin' higher and higher
Let's build a bridge, take us across
Hand in hand, climbin' higher and higherLet's build a bridge
Let's build a bridge
We're gonna build a bridge
We can build a bridge
We can, we can build a bridge
Build a bridgeLet's build a bridge, tear down the walls
Climbin' higher and higher
Let's build a bridge, take us across
Hand in hand, climbin' higher and higherLet's build a bridge and tear down the walls
Goin' up, climbin' higher and higher
Let's build a bridge, take us across
Hand in hand, climbin' higher and higherLet's build a bridge and tear down the walls
Goin' up, climbin' higher and higher
Let's build a bridge, take us across
Hand in hand, climbin' higher and higher
