

Don't Make Me Wait

Eternal

Oh yeah, don't make me wait for you
Come on now
Don't be a fool, just think about it, baby
Don't make me wait for you
Precious is my time, don't funk around it, baby Suppose our love goes round and round
Before you know it's settled down
Give me a reason to say "I do"
I'm tired of playing this game with you Oh my God, I can't deny it
Almost fell in love with you
Thinking everything would be so cool
Ooh la la, oh my god, I've got to fight it
I never wanna be with you
'Coz I never wanna face the truth Don't make me wait for you
Don't be a fool, just think about it, baby
Don't make me wait for you
Precious is my time, don't funk around it, baby I feel a fire within my soul
Confuse my body and take control
Why do you play me? I feel so cold
Just wanna please you 'coz you're my one Ooh la la, oh my God, I can't deny it
Almost fell in love with you
Thinking eveything would be so cool
Ooh la la, oh my God, I gotta fight it
I never wanna be with you
'Coz I never wanna face the truth Don't make me wait for you
Don't be a fool, just think about it, baby
Don't make me wait for you
Precious is my time, don't funk around it, baby Don't make me wait
Don't make me wait for you, no
Ya, I'll miss you I'll be there for you
As I always do
I'll be there for you
'Coz your love is true Don't make me wait for you
Don't be a fool, just think about it, baby
Don't make me wait for you
Precious is my time, don't funk around it, baby (Don't make me wait for you)
Don't make me wait 'coz I'm dying for you
(Don't be a fool just think about it, baby)
Give me your heart 'coz my love is so true (Don't make me wait for you)
Don't make me wait 'coz I'm dying for you

(Precious is my time, don't funk around it, baby)
Give me your heart 'coz my love is so true(Don't make me wait)
Don't make me wait for you
(Don't be a fool, just think about it, baby)
Don't make me waitDon't make me wait for you
Precious is my time
